Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 10, 22 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 10, line 1, the term "said groove" lacks prior antecedent basis.

In claim 22, line 1, the term "said angle" lacks prior antecedent basis.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-5,8,9,19,22-24,29,30 are rejected under 35 U.S.C. 102(b) as being anticipated by Medoff (5,931,839).

With respect to claim 1, Medoff discloses a fixation device for fixing a fracture in a bone structure, the fixation device comprising: a bendable pin (8) adapted for penetrating through an unstable bone fragment (9) of a bone structure across a fracture (11) and into a stable bone fragment (10) of the bone structure, the pin having an end extending out from the unstable bone fragment, as best seen in Fig.1; a fixation plate (1) adapted for being secured to the stable bone fragment at a distance from the end of the fixation plate; the fixation plate being engageable with the end of the bendable pin

Art Unit: 3732

to prevent the pin from backing out of the bone structure while providing restraint against movement of the pin in the plane of the plate; as set forth in column 4, lines 1-67, column 5, lines 1-67 and as best seen in FIGS. 1-7.

With respect to claims 2-5, 8,9,19,22-24, Medoff discloses all the limitations as set forth in column 4, lines 1-67, column 5, lines 1-67 and as best seen in FIGS. 1-7.

With respect to claims 29,30 the method steps, as set forth, would have been inherently carried out in the operation of the device, as set forth above.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 6,7,10,11,15-17,20,21,28 are rejected under 35 U.S.C. 103(a) as being unpatentable over Medoff (5,931,839) in view of Orbay (6,508,819).

With respect to the above claims, it is noted that Medoff did not teach of a groove in the plate for receiving the bent portion of the pin, as claimed by applicant. However, in a similar art, Orbay evidences the use of a groove in a plate for receiving a pin adapted to anchor the bone fragment to the plate.

Therefore, given the teaching of Orbay, it would have been obvious to one having ordinary skill in the art at the time the invention was made to incorporate the groove of Orbay in the device of Medoff to anchor the bone fragment to the plate.

Allowable Subject Matter

Claims 12-14,18,25-27 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
